

MAXIMUM LEVERAGE

LESS EFFORT. MORE SCALE.

Brand Kit

VOLUME 01 · IDENTITY, VOICE AND SYSTEM

LESS EFFORT. MORE SCALE.

SEPTEMBER 2026

THE IDEA

Leverage is the whole idea.

A lever moves what muscle can't. Maximum Leverage builds and runs the levers, so a local business grows without its owner working more hours. Every piece of the identity is built from that one mechanic.

01

The bars

Five bars that rise. Read left to right, they're a business getting bigger.

02

The M

The peaks trace an M. The right peak sits higher than the left: the after, not the before.

03

The lever line

A line drawn through the peaks. It's the rising diagonal used across the system.

TAGLINE

Less Effort. More Scale.

POSITIONING LINE

Proven levers that grow your local business without you.

MISSION

We build and run the growth levers the big companies use, from offers to AI to automated follow-up, so local business owners win more customers without working more hours.

VISION

A world where every local business can compete with the biggest names in its market.

VOICE

Short sentences.

If it needs a comma, split it.

Numbers over adjectives.

Say what changed and by how much.

Lever, then result.

Name what you pull. Then what moves.

Owner's language.

Customers, calls, hours. Never funnels or pipelines.

PRIMARY LOCKUP · LIGHT

Default on white and light grounds. Navy wordmark, gradient bars.

PRIMARY LOCKUP · DARK

Default on Night and Navy. Silver wordmark, gradient bars.

STACKED

Square and tall spaces. Icon centered above the wordmark.

CLEAR SPACE

Keep one bar-width (x) of clear space on all sides. x = the width of any single bar.

MINIMUM SIZE

Lockup: 200 px / 35 mm wide

Icon: 24 px on screen, 16 px favicon

Below these sizes, the bars blur together. Use the icon alone under 200 px.

THE ICON

The Stepped M.

Five bars, one letter. It reads as a chart before it reads as an M, and that's the point: the brand is about what goes up.

- A** Rounded bars, 28 wide, 12 apart. Ratio 7:3, never changed.
- B** Heights 150 · 108 · 66 · 132 · 196. Down, then up past where it started.
- C** Ignition gradient, bottom-left to top-right. Amber at the base, Signal red at the peak.

APP ICONS

SMALL SIZES

Holds at 32. At 16 it becomes a brand-colored mark, not a letter.

Night ground. Ignition accent.

Two darks, one light, and a three-stop gradient.
That's the whole palette.

IGNITION GRADIENT

0% Amber 55% Flame 100% Signal

Always runs bottom-left to top-right, the same direction the bars rise. Never vertical, never reversed.

RATIO

60 Night · 28 Off-white · 12 Ignition. The gradient is a highlight, never a wash.

DISPLAY · MICHROMA

Aa

ABCDEFGHIJKLM
NOPQRSTUVWXYZ
0123456789

Reserved for the wordmark, section numbers, and short labels. Never for a sentence. The wordmark itself is outlined art and is never retyped.

TEXT · MONTSERRAT

DISPLAY 800

Less Effort. More Scale.

HEADLINE 700

Proven levers that grow your local business.

BODY 400

We build and run the growth levers the big companies use, so owners win more customers without working more hours.

LABEL 600

LESS EFFORT. MORE SCALE.

Tracked caps at 0.32em for labels and the tagline. Everything else sits tight.

BUSINESS CARD · 3.5 × 2

Front: lockup only. Back: gradient, contact, tagline. Nothing else.

EMAIL SIGNATURE

Icon tile, three lines, tagline. No banners, no quotes, no images.

SOCIAL AVATAR

Icon only. The wordmark never fits a circle.

SOCIAL POST · 1200 × 630

Headline in Montserrat 800, one orange line, the icon as the visual. No stock photos.

WEBSITE HERO · DESKTOP

MAXIMUM
LEVERAGE

[Presentation title]

LESS EFFORT. MORE SCALE.

Six rules. Then leave it alone.

MAXIMUM
LEVERAGE

✓ Use the supplied files. Wordmark and icon are final art.

MAXIMUM
LEVERAGE

✓ Dark lockup on Night. Light lockup on off-white.

✓ White bars only on Ignition or Night tiles.

✗ Never stretch, squash, or rotate.

MAXIMUM LEVERAGE

✗ Never retype the wordmark in another font.

✗ Never place it on a busy background.
